**85<sup>th</sup> ANNUAL MEETING**

P R E L I M I N A R Y   P R O G R A M

**May 6-9, 2006**

The Westin Resort • Hilton Head Island, South Carolina

Dear Members, Residents and Guests:

It is my pleasure to welcome you and your spouse or guest to the 85th Annual Meeting of the American Association of Plastic Surgeons, to be held in Hilton Head Island, South Carolina, May 6-9, 2006. Please note that the meeting will have a slightly different format this year. The first day of the meeting and Opening Ceremonies will be held on Sunday, May 7, 2006, and will be preceded by our Welcoming Reception on Saturday evening May 6th. The Annual Member Business Meeting and the Presidents Dinner will be held on Monday, May 8th. The final morning of the meeting is on Tuesday May 9, 2006. The amenities of the Westin Resort Hotel are impressive, and we are certain that your stay will be pleasurable.

Dr. Hagerty and Dr. Bishop, our local hosts, have worked hard to organize a superb program of social activities, which I am sure you will enjoy. The area is renowned as one of the most popular vacation locations in the country with a rich variety of leisure, sightseeing, recreational and sporting activities available. The Program Chair for this year's Annual Meeting, Dr. Michael Yaremchuk and his committee have worked especially hard to prepare an outstanding program. Dr. Yaremchuk was pleased with the large response to the call for abstracts and with the quality of this year's submissions.

Discussion has always been an important goal of the Association- this year, we will have the Audience Response System (ARS) to facilitate and improve that process. The panels and special speakers will add an additional timely perspective on our residency training systems, the educational process, and the state of medicine today.

I hope that you choose to attend the meeting. I know your experience will be both rewarding and enjoyable. Welcome, and please do not hesitate to advise me or the extraordinary staff of PRRI (who have worked hard to make the event memorable) of anything that we might do to make your stay or experience more enjoyable!

Warm Regards,

Paul Manson, M.D.  
President

Dear Association Members & Guests:

As your Local Arrangement Chairs for the 85th Annual Meeting of the American Association of Plastic Surgeons, we would like to invite you to join us for the 85th Annual Meeting on Hilton Head Island, South Carolina. The Westin Resort has been selected as the location for our meeting and we think you will find it an outstanding venue. May is a great time to be in Hilton Head to enjoy all the al fresco activities including golf, swimming, tennis and exploring the island. Superb restaurants and shopping are readily available and the historic 18th century cities of Charleston, South Carolina and Savannah, Georgia are all within easy driving distance. ## PURPOSE AND CONTENT

The overall educational objective for the Annual Meeting of the American Association of Plastic Surgeons is to disseminate current and advanced knowledge in the field of plastic and reconstructive surgery among professionals who are involved in this specialty. This knowledge will be conveyed through structured scientific presentations and discussions of papers that contain original information and/or long-term follow up of sound basic principles in plastic and reconstructive surgery. The panel sessions will be "New Technologies in Plastic Surgery: Promises and Reality" chaired by Dr. Christopher Forrest and "Periorbital and Midface Rejuvenation," chaired by Dr. Michael Yaremchuk. This year's AACPS panel is titled "The Role of Technology in Plastic Surgery Education and Training" chaired by Drs. W. Thomas Lawrence and Joseph M. Rosen.

Since the meeting is attended by members of the Association and specially invited guests, ample time has been allocated for each academic presentation to allow full discussion by all professionals who wish to contribute to the educational objectives of our meeting. The overall objective of the educational format is to maximize information sharing so that patients may benefit from the practice of plastic and reconstructive surgery.
