

# **AESTHETIC SURGERY: IN-DEPTH WITH THE MASTERS**

## **APRIL 5-6, 2008**

*Back Bay Events Center  
Back Bay Grand Room  
Boston, Massachusetts*

### **Educational Goals**

Due to symposia time constraints, the faculty members who have an enormous depth of knowledge on a topic are offered very limited time for their presentations. In this quintessential symposium, plastic surgery masters will speak in depth on the topic of their expertise. Each leader will be allocated sufficient time to discuss his philosophies and surgical techniques in detail. Additionally, there will be ample time allocated for questions and answers. The speakers will share their most recent thoughts pertaining to their assigned topic with the audience, complemented by a large number of patient examples. Inclusion of consecutive surgical results will be encouraged.

### **Program Chairman**

Bahman Guyuron, MD

### **Faculty List**

Elizabeth Hall-Findlay, MD  
Dennis Hurwitz, MD  
Peter Fodor, MD  
Dennis C. Hammond, MD  
Glenn W. Jelks, MD  
J. William Little, MD  
Timothy J. Marten, MD  
Rod J. Rohrich, MD  
James M. Stuzin, MD  
Michael J. Yaremchuk, MD
